CAREER OBJECTIVE

Detail-oriented Computer Science undergraduate with hands-on experience in MERN stack development (React.js, Node.js, Express.js, MongoDB). Passionate about building scalable web applications, integrating REST APIs, and contributing to real-world products in fast-paced development teams.

EXPERIENCE

Mankind Pharma Ltd. | *Intern*

May 2025 – July 2025

- Developed a full-stack Library Management System using **React.js, Node.js, Express.js, and MongoDB** with **RESTful APIs** in a 10-member team.
- Implemented secure authentication with JWT, protected routes, and role-based admin login.
- Applied **MVC architecture**, optimized MongoDB schemas, and integrated robust error handling to improve scalability and reliability.
- Integrated search, filtering, and pagination to manage 1,000+ book records, reducing query response time by 40%.

Cognifyz Technologies | *Intern*

June 2024 – August 2024

- Built responsive user interfaces using **React.js** with component-based architecture.
- Integrated **REST APIs** & improved load speed by 25%.
- Used Git/GitHub for version control and collaboration.

PROJECTS

Stay Go | *React.js, Node.js, Express.js, MongoDB, JWT*

[Live Demo](#)

- Developed a full-stack MERN app with **authentication**, property listings, and **booking functionalities**.
- Integrated **Google Maps API** for location-based search, along with **rating** and **review systems** for user feedback.
- Deployed frontend on Vercel and backend on Render for seamless hosting.
- Conducted functional testing to ensure reliable and smooth end-to-end booking workflows.

Space4Wheels | *Node.js, Express.js, MongoDB, HTML, CSS, JavaScript*

[Live Demo](#)

- Built a Smart Parking Web App with role-based access control for 2 roles: **User** and **Plot Owner**.
- Developed **RESTful APIs** with **Node.js** & **Express.js** for slot availability, booking management, and user interactions.
- Implemented **Razorpay payment gateway** and a **review system** for online transactions and trust-building.
- Led a **3-member team**, modularized the codebase, and managed **Agile sprints with Git-based collaboration**.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, HTML/CSS

Backend: Node.js, Express.js, MongoDB, MySQL, JWT, REST APIs

Frontend: React.js, Next.js, HTML/CSS, Tailwind

Tools: Git/GitHub, Postman, Socket.IO, Vercel, Render

ACHIEVEMENTS & CERTIFICATIONS

- Solved 160+ DSA problems on LeetCode.
- Programming in Java from **IIT Kharagpur**.
- Full Stack Development from **Google** (via **Udemy**).

EDUCATION

Sage University

B.Tech in Computer Science and Engineering

2022 — 2026

CGPA: 8.15
